

HERALD
Quality disposables

2023/24 PRODUCT CATALOGUE

Manufacturers & importers of high quality disposables

A NEW WORLD OF DISPOSABLES

At Herald, as a leading supplier of catering and janitorial disposables, we pride ourselves on offering an exhaustive range of quality products to multiple markets across the UK. As well as importing from a full roster of carefully sourced suppliers, we manufacture certain items and have recently expanded our storage space to extend our wide and varied supply of eco-friendly options and to ensure you're offered unlimited choice.

We best support our customers, while staying ahead ourselves, by offering as many credible options as possible and selling in both small and large quantities. Buying from a single source means customers can plan their storage and order less, precisely and more frequently.

Good relations with our supply chain ensures a fast turnaround on the completion of every order and we pride ourselves on this level of service. Quick and easy accessibility also means you don't have to invest too much up front, which is a bonus right now for many. By selling smaller amounts of a greater range of products we can provide our customers with a one-stop shop.

Although highly competitive, we don't sacrifice quality for price, refusing to stock products that fall below a certain grade in order to protect our reputation and our customers' expectation. Many customers have been with us for the thirty plus years since our inception; a fact which we hope reflects our commitment to great service, fair pricing and the quality of our product offering.

MAKE IT YOUR OWN WITH OUR BESPOKE PRINTING SERVICE

Take advantage of our bespoke printing service and order a wide range of customised products to support your marketing efforts and put your brand out there.

We offer a quick turnaround on a full selection of items including printed food boxes, paper bags and bespoke paper cups. Our consultative approach means we can help to guide you, from concept stage through to delivery, providing you with a dedicated service that ensures you get the best end result.

We can advise on what products guarantee the best print outcomes, taking into account the intended purpose of the product and the temperature of the content it will hold. We also do smaller print runs and hold stock for customers if they want to invest in customised, printed items but don't have the space to hold a basic amount.
